

# VALE SP2400HD

## AGRICULTURAL TRACTOR SNOWPLOW

---

### PRODUCT DESCRIPTION

A heavy duty snowplough designed to be used with agricultural tractors.

The snowplough is capable of snowploughing to the left or right as well as bulldozing in a central position. Supplied as standard with a Category 2 mount bracket which allows fitment to all tractors fitted with a standard front linkage. The snowplough is supplied as standard with abrasion resistant rubber wearing edge, but can also be fitted with fitted "Hardox" steel wearing edges which are spring loaded.

---
