

VALE TS80

TRAILED DROP SALT SPREADER

PRODUCT DESCRIPTION

A trailed drop salt spreader with a 0.285m³ hopper capacity to take approximately 400kg of salt. Capable of spreading wet or dry – brown or white salt via a rotating roller and cams in the bottom of the hopper. Fitted with a standard 50mm ball coupling or category 1 three point linkage points for use with a tractor. The spreading system is powered via a basic ground driven system which makes the spreader simple to use and basic to maintain.

SPECIFICATION

- 0.285m³ Mild Steel Hopper
- Ground driven stainless steel delivery roller with a drop width of 80cm
- Manually adjustable application rates via a graduated lever
- Replaceable stainless steel delivery cams to suit wet or dry salt
- Agitator to aid salt delivery
- Convenient wheel mounted engagement knob
- Mesh screen
- Ring hitch in lieu of 50mm towing head
- Extending drawbar which can be adjusted in height to suit various towing vehicles
- Towing head to suit a standard 50mm towing ball
- All metal work blast cleaned, prior to zinc rich powder prime and finished in Polyester Powder Finish
- Heavy duty tyres
- Fluorescent markings on the rear
- Full road lighting with high quality LED lighting

OPTIONAL ITEMS

- 3 point linkage to suit a compact tractor in lieu of the standard drawbar
- Ring hitch in lieu of 50mm towing head
